Re SAC Letter No. 13, Series 1952, dated 2/1/52.

On 4/28/52 [REDACTED] Radio Station KGO, American Broadcasting System, San Francisco, telephonically advised that beginning Wednesday evenings at 8:30 PM, May 7, 1952, KGO would broadcast a thirty minute program of "I Was A Communist Spy For The FBI." These broadcasts will involve a twenty-six week series. The time has been purchased by the Rainier Brewing Company for San Francisco and Los Angeles. [REDACTED] understands Golden State Company, Ltd., a milk and ice cream concern, is sponsoring the same program for twelve other radio stations throughout California.

[REDACTED] extended an invitation to the San Francisco Office to attend a special preview of the initial broadcast at 10:00 AM, 4/29/52, to a local audience which would consist of representatives of the Mayor's Office, San Francisco; the San Francisco Chamber of Commerce, American Legion representatives and similar organizations following which those present would be given an opportunity, if they so desired, to transcribe their views on the program and coming series.

[REDACTED] is very friendly and cooperative with the San Francisco Office. He was informed, however, that we could not accept his invitation to participate in the program since the FBI has had no connection whatsoever with the proposed radio program, the motion picture or book on this matter involving MATTHEW CVETIC; furthermore, that the Bureau does not intend to have anything to do with the radio program.

At the same time it was determined that the local representative of the FREDERICK W. ZIV Company had sold the sponsorship idea to the Rainier Brewing Company. The ZIV representative, however, did not indicate or even infer to [REDACTED] that the FBI had endorsed or approved the radio show.

The above is for the Bureau's information. Copies of this communication are being made available to the Los Angeles and San Diego Offices for the same purpose in view of the proposed broadcasts throughout California.

For record purposes, [redacted] of Warner Brothers called. Warner Brothers are contemplating purchasing the Matthew Guetic series of stories which have appeared in the Saturday Evening Post. Before entering into any negotiations, they wanted an informal expression from the Bureau as to whether the Bureau would look kindly toward such a project or would be opposed to such a project.

I told [redacted] that the Bureau's position would, of course, have to be one of neither approving nor disapproving; that if they bought the story we would, of course, be glad to read the script and without assuming any responsibility and without either approving or disapproving, make any suggestions that occurred to us.

He stated he understood and agreed that it would be impossible for us to do anything more.

For record purposes, [REDACTED] the Warner Brothers Studios, called me and stated that they wanted to change Matt Cvetic's story from "I Posed As A Communist For The FBI" to "I Was A Communist For The FBI."

I told [REDACTED] that it appeared that this title was merely a matter of words and that since we had no connection with the Cvetic story we would not take any position.

[REDACTED] of Warner Brothers Pictures came in today. He stated some time next week they contemplate having a print of the picture based upon the Matthew Cvetic story "I Was A Communist Spy for the FBI." He stated a final title had not been assigned to this picture but this would probably be done in the next few days, and he doubted that they would use the title above-mentioned.

[REDACTED] stated Warner Brothers contemplates taking Cvetic to the various cities where there are Hearst papers and getting the local Hearst papers to sponsor Cvetic along with American Legion Posts. He wondered if we had any objection to this. I told him frankly it was too late for them to come to us for advice, they could do whatever they wished.

He then wondered if it would be possible for the Director to do a short recording pointing out the need for citizens to report information to the FBI. I told him the Director had spoken on this subject on numerous occasions but under no circumstances would the Director make a recording which would be utilized with the picture. He understood this and asked that I forget he asked. I told him that we simply would not have any part in doing anything which would constitute an endorsement of this or any other picture.

By reference from the Director's office, at 12:55 P.M. today [REDACTED] of Warner Brothers telephoned from New York and advised he had just come in from the coast and had seen the finished film, "I Was a Communist Spy for the FBI." This is the film based on the Matt Cvetic case. **b7c**

[REDACTED] stated he wanted the Director to know that he had just come down from the projection room with tears in his eyes; that this was a great film and he felt it could do more good than all of the money in the world and that he would like the Director to see it either in New York or in Washington, and that, of course, he would want to have the Director see it on the quiet with no publicity attached whatsoever. **b7c**

[REDACTED] stated he would be glad to come to Washington with the film if the Director would like to see it, as the Director may have some ideas of his own on the film. He said the picture is to have its first public showing in Pittsburgh on April 19th, and while he repeatedly said he wanted no publicity, it is obvious that he would like to get the Director's reaction to the film. He asked to be called back at Warner Brothers office in New York, or at the [REDACTED] where he has Apartment [REDACTED] in New York City. **b7c**

It is recommended that we tell [REDACTED] in view of the Director's schedule and commitments at the present time, it would be impossible to see the film at any specific time but if they want to send a print as his representatives have told us Director will try to see it.

WARNER BROTHERS PICTURE

"I WAS A COMMUNIST SPY FOR THE FBI"

SAC Hood called from Los Angeles.

[REDACTED] of the Robert Orr Advertising Agency which handles Louella Parsons' program, came in to see him today with a script for the Louella Parsons show of April 22. In this show, Louella Parsons has on her program Frank Lovejoy who impersonated Matt Cvetic in the Warner Brothers picture "I Was a Communist Spy for the FBI." They also have a long distance recording of a telephone conversation with Cvetic.

Cvetic talks about Hollywood protecting [REDACTED] and Sterling Hayden and of Communist retaliation against witnesses who divulge Communist programs and activities and then states "in the FBI, we know witnesses . . . who were disposed of." Cvetic then states one way of doing it is to insert a poison needle in the body of one of these individuals, they die a few hours later, and there is no evidence of foul play.

Cvetic then talks about the fact he knows a Communist who is the head of a water works in one of the largest California cities, that this Communist could poison the city's population in a matter of hours. This Communist is presently being protected but that "we" will get him in due time.

I told Hood to see [REDACTED] and first of all point out to [REDACTED] that while we have not made any public comment on Matthew Cvetic we want [REDACTED] to know for his own personal and confidential information that [REDACTED]

secondly, Cvetic has no right to presume to speak for the FBI as is connoted by his use of the word "we", that Hood feels [REDACTED] should know that it might be necessary for us to publicly deny Cvetic's alleged insinuations; thirdly, Hood would like for [REDACTED] to immediately identify the case wherein a witness was disposed of with the poison needle; and fourthly, to immediately identify the Communist who is the head of a water works.

Hood stated [REDACTED] was very much upset when he contacted him, that he has a very definite feeling that [REDACTED] is doing a radical revision of the script.

## Warners' Anti-Red Film Timely and Hard-Hitting

**W**ITH sharp timeliness Warner Brothers Pictures makes available this week to the theatres of the nation a hard-hitting subject dealing with the Communist conspiracy under the title, "I Was a Communist for the F.B.I."

The timeliness of this picture is sharply emphasized against the current disclosures of Communistic activities on the part of some Hollywood people which have been brought out in the Un-American Activities Committee hearings in Washington.

These disclosures are inevitably disquieting to the American public which right now is in no mood lightly to excuse the kind of Red penetration which took place in Hollywood and about which too little indeed was done.

The one fatal danger to which the motion picture was exposed was Red coloring of the picture itself. As is now well-known nothing of this kind was allowed to take place. There may have been some lack of watchfulness about employee loyalty in the studio—fostered by ideological confusions which were quite general not only with the public but in government as well and by no means confined to Hollywood. But there was no lack of watchfulness about what went on the screen.

The organized industry is this time avoiding the silly adventures upon which it embarked at the time of the earlier probe of Hollywood by the Un-American Activities Committee. This time it is sensibly recognizing the right and duty of the Congressional Committee to expose treason and is cooperating accordingly.

But the public opinion impact of the disclosures, dealing with names which the public familiarly associates with the screen, is by no means good for the motion picture business. Hence the advent right now of the Warner Brothers picture is especially fortunate and opportune.

Under the generalship of Mr. Jack L. Warner and with the spirited cooperation of Mr. Bryan Foy there emerges in "I Was a Communist for the F.B.I." a powerful and moving dramatic narrative. The industry in its higher purposes and necessities has not been too fortunate in some of the subjects dealing more or less directly with the Communist conspiracy which have been previously released. It is fortunate in this one.

The picture within the limitations of a popular dramatic subject is revealing and informative relative to some of the most poisonous aspects of the Red intrigue as practiced in this country. But for purposes of audience impact it is far more than that. It has a very real warmth and appeal, dealing centrally with the retelling of the true story of a genuine national hero who made a great sacrifice in the nation's defense.

Audiences will be moved by such incidents as that of a father who so loved his country as to be willing to appear as a traitor in the eyes of his son and will be thrilled by melodramatic flashes of the kind which have long been representative of the craftsmanship of Bryan Foy.

The theatre man who is alert to the repercussions of the current Washington revelations will in his own immediate interest and in his solicitude for the welfare of the industry at large see in this current Warner release a significant opportunity. The subject ought to be played enthusiastically—broadly across the nation and quickly.

This is a film in which Matthew Cuetic is connected, and the Bureau did not participate in it. In 1943 correspondent communicated with the Director and set forth information of interest to other government agencies. At that time she was advised to report any data of value to our New Haven Office. (62-58216-3558)

My dear Mr. Hoover,

I send you the enclosed letter to the propaganda office. I trust to your judgment as to whether it is a good idea or not but among those who saw the picture

I heard all sorts of comment which led me to write this letter. Use your own judgment as I feel you would know better than I.

My husband served in the 1st & 2nd world war, my 2 oldest boys served in the 2nd. One of them is now in Korea fighting the 3rd war(?) and one son in the Navy on the U. S. S. Orion and one in Camp Pickett replacement center 43rd Air, F.A.B.

Gentlemen:

Please let me know the official attitude that  
the Bureau takes toward the current motion  
picture I WAS A COMMUNIST FOR THE FBI.

In your opinion does the picture fairly and  
accurately depict the operation of an FBI  
agent?

Is there involved any element of unreasonable  
exploitation of the prestige and interest in  
the FBI?

The picture has played our Ritz Clearfield and  
some very good comment has been voiced.

Yours truly,

Dear [REDACTED]

Your letter of May 26, 1951, has been received.

Inasmuch as the FBI did not participate in the production of the motion picture which you mention, it is not within my province to comment in this regard. I trust you will understand that the FBI receives numerous requests to endorse commercial ventures of all types and I have found it necessary to adopt a uniform policy of refraining from making remarks concerning situations wherein this Bureau has not taken an active part.

LAST NIGHT I SAW THE PICTURE ENTITLED " I WAS A COMMUNIST FOR THE F.B.I." AFTER SEEING THIS PICTURE I WOULD NOT FEEL GOOD UNLESS I EXPRESSED MY SINCERE APPRECIATION TO YOU FOR YOUR SPLENDID ORGANIZATION.

THIS LETTER MAY NOT MEANT TOO MUCH COMING FROM ME, BUT I HAD TO LET YOU KNOW MY HIGH REGARD FOR THE BUREAU. DURING MY TIME AS A PEACE OFFICER AND AS HEAD OF A LARGE PLANT PROTECTION FORCE DURING THE LAST WAR, I HAD THE PLEASURE OF WORKING WITH SEVERAL OF YOUR AGENTS WHOM I LEARNED TO RESPECT AND ADMIRE.

MAY I SAY TO YOU, IT HAS ALWAYS BEEN MY DESIRE THAT NOT IN THE TO FAR FUTURE ALL ENFORCEMENT OFFICERS WILL ATTEMPT TO REACH THE STANDARDS SET BY YOUR ORGANIZATION FOR LAW ENFORCEMENT OFFICERS.

TO A GREAT DEGREE THE SECURITY OF OUR NATION IS IN YOUR DEPARTMENTS HANDS, AND I FEEL SURE IF THE COMPLACENT PUBLIC WILL BUT COOPERATE WITH YOU AND OTHER LAW ENFORCEMENT OFFICERS THIS SECURITY WILL FOR EVER BE OURS TO ENJOY AS WE HAVE IN THE YEARS PAST.

IN CLOSING MAY I SAY, NOT ONLY AM I PROUD TO BE AN AMERICAN, BUT I AM ALSO PROUD THAT THE FEDERAL BUREAU OF INVESTIGATION IS AN IMPORTANT COG IN THIS GREAT COUNTRY OF OURS.

[REDACTED] with the Naval Research Laboratory called and spoke to Holloman today. He stated that he was on his lunch hour and wanted to ask if the picture "I Was a Communist Spy For The FBI" was based on facts or fiction.

Holloman advised [REDACTED] that the FBI had no connection whatsoever with the filming of this picture and therefore could not be of assistance to him in regard to his inquiry.

[REDACTED] then stated that he thought this was a very horrible and brutal propaganda picture and that the Communists were pictured as nothing more than gangsters.

Although [REDACTED] did not appear to be sympathetic toward the Communists and is apparently a young boy and somewhat naive, it was thought that his conversation should be recorded to indicate his reaction to the picture. FV 52

MATT CVETIC  
INFORMATION CONCERNING

This is to advise that [REDACTED] Radio Station KWTX, Waco, Texas, has advised this office of a transcribed dramatic program which is being planned by his station. He informed that this program will be entitled "I Was A Communist For The FBI," will be a thirty-minute transcribed weekly program, sponsored by a local grocery store chain. He advised that this transcription was prepared by the Frederick W. Ziv Company of Cincinnati, Ohio, and that this program will be presently weekly for the next fifty-two weeks, beginning the second week of June 1952. He informed further that to introduce this program, MATT CVETIC, author of "I WAS A COMMUNIST FOR THE FBI" is being brought to Waco, Texas, and will speak at a local school auditorium at 8 p.m. on June 3, 1952, concerning his experiences while reportedly serving as an informant for the FBI.

[REDACTED] has advised that these dramatic programs are purported to be excerpts from the book, "I WAS A COMMUNIST FOR THE FBI." [REDACTED] made inquiry as to whether or not a Bureau representative would introduce CVETIC at this speaking engagement, but he was advised that this would not be possible.

The above is being submitted for information purposes.

Dear Mr. Hoover:

We are playing a picture show at the Indiana Theatre in Kokomo, Indiana on July 29 thru 31 which concerns 140 million Americans and a small number of communists that are in this country.

The picture is "I Was A Communist for the F.B.I." which ~~has been~~ ~~seen~~ already.

This type of film does not appeal to the majority of the movie-going public, therefore it's necessary to exploit the film as much as possible with the hope of increasing attendance.

Here is a film which I believe all Americans should see, then they would realize how important it is for each individual to do his part in stamping out the Red menace.

I have read the story of Matt Cvetic in the Saturday Evening Post and am eagerly awaiting the picture.

Attached is a Western Union Telegram with copy regarding the movie, if this is not out of your line I would appreciate you sending this to me collect. I would have it blown up and use as display for the "I Was A Communist For The F.B.I." film. This would be a great booster for both the picture and the F.B.I.

Yours very truly,

My Dear Mr. Hoover:

We've been very interested in securing a sponsor for the Frederic Miv production "I was A Communist For The FBI", but there is always the skepticism on the potential sponsor's part that this program is not a bona fide document, and that it may be frowned upon by your department.

I well realize the tremendous scope and breadth of your duties, Mr. Hoover, however I would appreciate receiving a note from you pertaining to the Bureau's view on this program.

I don't mean to use your letter as a selling tool, but rather as a means to dispel this skepticism of which I spoke.

With the hope that this doesn't inconvenience you, I remain

The program tonight, starring Dana Andrews as Matt Cuetic, was entitled "Rich Man-Poor Man" and opened at a Communist cell meeting under the direction of David Bowden (phonetic) who announced that the next sucker on the Party list was Jules Jordan, a young, naive millionaire who had only two loves, his wife and his magazine, "Open Thought."

Bowden and Cuetic work on Jordan's liberal sympathies and get him to underwrite an organization called "American Liberty Fund," the profits of which go into the Party's coffers. Cuetic notified the FBI of this and tells them to await further word from him. Cuetic, at Bowden's urging, contacts Jordan and complains because Jordan's editor, Harry Ranier had fired an editorial writer on the magazine named Crevko who has been accused by Ranier of being a Communist.

At dinner on a later date at Jordan's home, Bowden and Cuetic incite the enmity of Jordan's wife who believes he is being duped by the Communists. Bowden has microphones in Jordan's office and hears Ranier, the editor, complain about the policy of the magazine, which is slanted more and more in favor of the Communists.

At a Party meeting Bowden reports on the success of the "American Liberty Fund" and orders Cuetic to kill Ranier, the editor. Cuetic enlists the aid of the FBI. That night Ranier accompanies Cuetic in the latter's car as they presumably proceed to Jordan's home. They are, by prearrangement, intercepted by the FBI. Cuetic reports back to Bowden and tells him that he, Cuetic, has planted false Communist credentials cards in Ranier's desk and then notified the FBI, who now have Ranier in custody.

The scene switches to Jordan's home where he expresses complete shock at the news about Ranier. Jordan agrees, over his wife's vigorous objections, to turn over the job of running his magazine to Bowden and Cuetic. The last scene is in the press room of the magazine as Jordan rushes in on Bowden and Cuetic, denounces them and relates that his wife has finally opened his eyes.

While the theme of this particular show has some merit, the script was poor and the ending was juvenile in its impact.

The fourteenth presentation of the radio series "I Was A Communist," in which Dane Andrews portrayed Matt Cuetic, heard on June 30, 1952, over Radio Station WRC, was monitored by Special Agent [redacted] Crime Records Section.

This episode involved a trip by Cuetic to Canada and successful efforts on his part to uncover a Communist espionage plot in the vicinity of Montreal, Canada. Nothing of an unfavorable nature concerning the FBI was included in this presentation.

The episode began with Cuetic traveling to Canada in the company of a Russian Secret Police Agent, Mr. Milhigh (phonetic). Cuetic had been furnished the name of one Mr. Ferguson by the FBI as a confidential contact in Canada. During the trip Milhigh, in response to a question by Cuetic, startled Cuetic by calling him an FBI Agent. He then made the remark that in the Russian Secret Police work each Agent looked on everyone as a potential FBI Agent.

Upon arrival in Canada, Cuetic contacted Ferguson who told him about an espionage case involving a leak of secret information from the Owlshead Project, a joint Canadian-American guided missile project. Ferguson exhibited pictures of Owlshead workers whom he suspected and further mentioned that Milhigh might be the logical Russian contact man in this case.

While in Canada, Cuetic lived at the Communist Party Headquarters and taught classes in a Communist Party school. He was introduced as the Secretary of the Slav Congress in the United States. At the Party Headquarters he observed a young blond girl whom he suspected of working for the Party. He discovered that this girl was a sister of one Paul Verner, and he recognized Verner as one of the suspected workers at the Owlshead Project. He subsequently ascertained that Verner had been coerced in some way into furnishing plant secrets to the Party and that his sister was acting as his unwilling courier.

He reported this information to Ferguson, and it was planned that the police officials attempt to get Verner to confess by

telling him that his sister had furnished a complete story of their activities.

Under the ruse of taking him to the Communist Party Headquarters, Cuetic got Verner out of the latter's house. They were then surprised by Ferguson and several Canadian policemen. Verner bolted and, in an attempt to escape, jumped into a nearby canal. Cuetic pulled him out and Ferguson and the policemen took him into custody. Verner then made a confession and it was anticipated that he would testify against the Party.

Cuetic then proceeded to his Communist Party school and Ferguson and the policemen prepared to raid the Communist Party Headquarters in order to recover the stolen documents and secrets furnished to the Party by Verner.

Cuetic concluded the story with a statement that in his participation in this work he had no recognition and no friends and that he always walked alone.

Mr. J. Edgar Hoover, Director  
FEDERAL BUREAU OF INVESTIGATION  
Washington, D. C.

Dear Mr. Hoover:

On October 5th our station will begin broadcasting the radio program called "I WAS A COMMUNIST FOR THE FBI," starring Dana Andrews. As I am sure you are familiar with this program, you will recall it is a half-hour drama broadcast once a week for 52 weeks.

Just prior to the entire broadcast, we are planning to have a 15-minute program during which leading law enforcement officers of this area will make some remarks about the series and what their agencies do in the fight against the communist mess.

If you could consider it, we would very much like to have you send us either a short recorded message or a written message for us to broadcast during this preliminary program. If you do not wish to mention either the station or the program we would be very pleased just to have a general message from you as to the importance of this fight against communism in which the Federal Bureau of Investigation is one of the nation's leaders.

We are very thankful for any favors you may render in this nature.

With kindest regards,

Re SAC letter number 13 (A) dated 2/1/52.

For the information of the Bureau, radio station WABB, Mobile, Alabama, is carrying a weekly broadcast of the program "I WAS A COMMUNIST SPY FOR THE FBI", which program was begun in Mobile on Wednesday night, November 12, 1952, to run for 52 weeks.

It was brought to the attention of this office on November 17, 1952, that the principal of a local school had urged students and their families to listen to this program, inasmuch, as there are 1,000 Communists in Mobile.

Mobile, was contacted November 17, 1952, and advised that she had inserted the following statement in a weekly notice to students of that school:

"COMMUNISM: Tuesday afternoon I heard a preview of the program that will be given over WABB tonight and for fifty-one successive Wednesday nights from 7:30 to 8:00. It is an absolutely TRUE story of FACTS we all should know. The gentleman who explained the program to us said there were one thousand COMMUNISTS in Mobile. We hope you will tune in tonight and every Wednesday night from now on as long as the series lasts."

explained that she had attended a preview on November 11, 1952, in the studios of radio station WABB and had heard an unidentified man explain this radio program and that this man had said that the program was being put on at the request of an unnamed Government agency. She stated that the man definitely remarked that the program was an "absolutely true story of fact." The man then went on to say that there are Communists wherever there is a Longshoreman's Union, and that there are more than 1,000 Communists in New Orleans, Louisiana. stated that she got the impression from the man's statements that there are also 1,000 Communists in Mobile.

This is your Musical Album...a weekly feature of the Beatrice Steel Tank Mfg. Company and its subsidiary..Tote System Incorporated with music selected expressly for your Sunday afternoon listening pleasure..

The word safety has a multitude of meanings..on our highways we spend millions of dollars yearly to have the highways patrolled, to erect signs with the speed limit noted..the curves..the intersections..with automatic signals at well-travelled intersections so as to regulate the traffic..and you can probably think of many other means by which traffic is regulated..

In industry, large expenditures are also common..to insure the safety of the workers..to prevent them from being entangled in some of the moving parts of the machinery..or by putting railings on stairs and teaching the employees the use of fire extinguishers to properly fight fires..and other ways and means to prevent them from losing work days.. and their income..and also their health..

In schools we've done the same..the children are given fire drills so that in the event of a fire..they may be taken out of the building in an orderly fashion..and by signs on bulletin boards in all schools safety is always in the minds of the teachers..and wherever you might go in this great land of ours, we are constantly talking about safety-..how vicious the lack of safety is..it takes untold lives each and every day..on the

And yet..we've become a little curious about what steps are being taken for the safety of our government..we all know that we have one of the finest law enforcement and investigation departments in the world..the Federal Bureau of Investigation..the FBI as it's called and under its director it has attained a position of eminence even in the minds of the criminals because they are afraid.. they know what it can do..but frequently we learn that this wonderful organization has had its effectiveness somewhat abated because somewhere along the path, some political intrigue has made it necessary to prevent the FBI from going on its unfettered way..this in itself is wrong..the more this splendid organization can have a freedom to operate in its own way, the more safe we will all be...whether it be from enemies foreign or domestic..and tho' we don't know the overall function of this organization, we can rest assured that all investigations are done with the proper procedure..certainly not that of a police state..where one is taken out of his bed in the dead of the night and thrown into prison..no, that is not the way of the FBI..similarly, when the FBI has completed its investigation, then the Justice Department takes over and the person is given a trail..this is not the way of the police state..in such a

state, there are no trials..but nonetheless, even in the Justice Department we've all known of a change in the procedure at times, depending on the defendant..who he is..

immediately of course the press and radio commentators, say tht that's politics..that it's just a condition that does exist.. but since we all know that it exists, why don't we do something about it..this involves the safety of our country. it doesn't matter whether the enemy be foreign or domestic..the individual is still an enemy..and should be treated as such..

The first reaction from all of us who make up the electorate, is "well, just what can I do about it", and the answer is plenty.. First you can write, wire or phone your congressman and Senator and for that matter the President..have you any idea what an impact twenty million telegrams would make on a President. If in the Kansas City election fraud, the President would have received that many, you can wager there wouldn't have been any hushing up of that scandal..also when the Communists have been investigated, and the "Red Herring" sign was put on these investigations, a President would go against even five million letters or telegrams, he wouldn't have <sup>the</sup> right or the intestinal fortitude to do so.. Remember the power you hold in your vote and a little message with your signature on it..it has all the power..now, also, what you can do about it..in the second place, let's be a little more realistic about electing our officials..some of these men who are running for office would allow them to run your business that was worth, say..in round figures, five million dollars...?

Put the question in that light..this government of ours is your business, and its worth a lot more than five million, of five billion or five trillion..the freedoms and liberties we enjoy have monetary values..by that we mean you just can't put a monetary value on them..because if you don't have..as many people in the world don't..no amount of money regardless of how large can get them back...

As your <sup>own</sup> individual stake in this country..you have a billion dollars invested..a billion dollars, or a trillion dollars invested in freedom and liberty..are you going to let someone run that business who doesn't know how to run a business...the safety of our government is in the hands of the people we elect as our representatives and we must know how effective they are..how efficient they are we must know more about their morale fibre and their integrity..the past few years have proven to all of us that we simply can't take in anybody for officials in our government..

Please..we beg of you all..anyone who has reached the legal voting age..become informed before you vote..don't go to your appointed polling place and mark an "X" indiscriminately..you must..you must know about these individuals before you get there so you know for whom and for what you are voting..the safety of our government..your government is being held in that balance..

When advised of the Director's absence from the office,                      asked that the following message be given to Mr. Hoover.

He stated he was a friend of Mr. Hoover's and his address is                      here in the city.

I do not know him.  
He said he was listening to the program "I Was A Communist for the FBI" and he thinks it is a recorded program and does not follow the script as originally written. He further stated that it is not giving the United States any break and he would like to have the script checked by the FBI. He said the program is obviously infiltrated.

He stated he would call in the morning as he would like to talk to Mr. Hoover about this.

A check of the personal files and the Bureau files failed to give any information on

June 9th 1953

Mr. G. Edgar Hoover,  
Director Federal Bureau Investigation,  
Washington, D.C.

Dear Sir;

While listening to the program "I was a Communist for the F.B.I., over Radio Station CKW, on June 7th 6:30 P.M. several of the narrators referred to the Communists as [redacted]

Now [redacted] happens to be my family name and is of DUTCH origin many hundreds of years old. We have had the etymology of the word [redacted] traced as far back as possible and are informed it is a DUTCH family name of ancient origin and has no established meaning, except as "raped" by certain American Cartoonists and commentators and used in slang form..

The word was first used by a "crack brained" cartoonist in the early 30's who thot he had invented a new word. At first it appeared as only ridiculou, but of late has become seriously annoying - having nitwits call us at 3 P.M. and wise cracking. How would you feel, were you in our place?

The narrator stated that all names and places were fictitious but as you can see the name is very much real.

Will you kindly see that all future radio or T.V. programs using F.B.I. material, delete the name [redacted] from it's identification of characters. We have no objection to the name [redacted] being used provided it is identified in it's true character.

Thanking you in advance for any courtesies extended, Iam

Very truly yours,

Dear [REDACTED]

Thank you for the interest which prompted your letter of June 9, 1953.

While I can understand your concern in this matter, I regret that I cannot be of service. I thought you might like to know that the FBI has never had, and does not at present have any connection with the program "I Was a Communist for the FBI," and, therefore, can exercise no control over the material used on that program.

On 7/17/53 at 12:00 Midnight a radio announcer on Station KVOV Provo, Utah, was overheard describing feature programs for the coming week and in calling attention to the above program he made a statement to the effect that the program was based on material from the official files of the FBI.

SA [REDACTED] on my instructions contacted the Manager of Radio Station KVOV and ascertained that the announcer on that occasion was [REDACTED] who advised that he might have made a statement to the effect that the program was based on material from the files of the FBI; that he knew the program was not actually based on FBI files and that any misstatement was made through carelessness. He advised that he regretted the misstatement that he had made and in the future would do no "ad libbing" concerning this program but would use records or disks furnished by the producers of the program. He stated that while in the U. S. Marine Corps during World War II he had spent many months at Quantico and had a great respect for the FBI and would not intentionally make any incorrect statement concerning the Bureau.

[REDACTED] KVOV, advised that he had instructed [REDACTED] not to do any further "ad libbing" concerning the program.

From the way the announcement was made there could be no question but that anyone hearing it would receive the definite impression that the program was prepared from the official files of the Bureau. I do not believe that [REDACTED] will repeat the mistake, and it is indicated that it was a careless mistake. I do not believe any further action should be taken in the matter, and no further action will be taken by this office.
